

# Activities at Fillmore SWCD Fair Booth

## Time: 2-3pm

### Wednesday, July 21 – Dig into Dirt

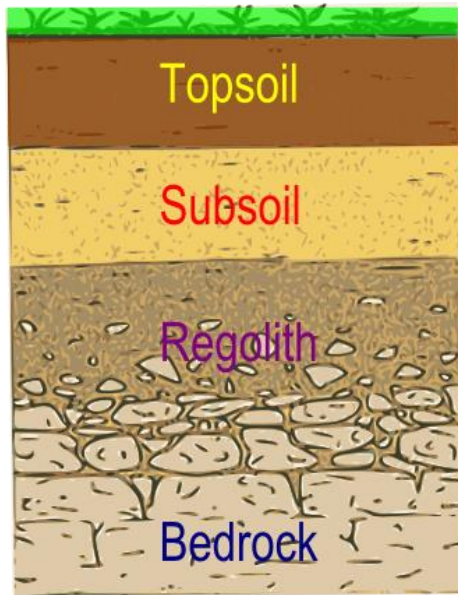

Come learn about the ground underneath your feet and how to protect our soils.

Activities: Rainfall/Runoff Simulator

See how different land conservation practices are affected after a rain event!

Edible soils (build your own soil layers to eat)

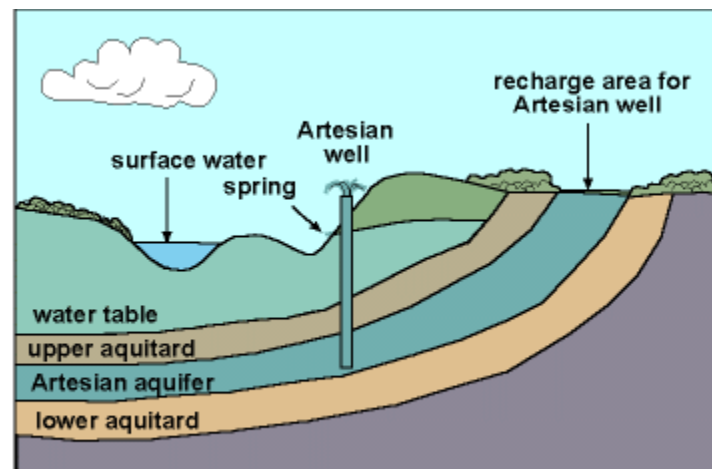

Stream table

### Thursday, July 22 – The Power of Water

Come learn how water effects and makes changes to our landscape

Activities: Stream table, Groundwater model and Edible soil

CROSS SECTION OF EARTH SHOWING PARTS OF AN AQUIFER

### Friday, July 23 – FREE Nitrate Testing Clinic 2-5 p.m.

To participate, collect at least 1 cup of water from your well in a clean plastic or glass container and bring it to the Fillmore SWCD booth. Results are typically provided in 5 – 10 minutes depending on how many testers are in line.

Activities: Stream table & Edible soil
