

BWSR State Cost Share Grant for FY 2013

Fillmore Soil and Water Conservation District

BWSR Grant Awarded
\$ 31,576

Grant Period (incl. extensions)
From: October 18, 2012
To: June 30, 2014

Funds Returned to State
Type \$306.29
Date Fund Returned: 6/18/15

Expenditures by Category

As of 12/31/2015

Administration/ Coordination	
Project Development	
Technical and Engineering	\$ 6,253.96
Construction	\$ 25,015.75
Total Expenditures	\$ 31,269.71

Map of Conservation Practices in Fillmore County (as reported in eLINK for the MN Board of Water and Soil Resources)

Outputs and Outcomes

Outputs: One well decommissioning, one waterway (3100 feet) and one terrace restoration (2100 feet) were completed in 2013. Treated acres = 17.2.
In 2014, 2 grassed waterways (2100' total), one terrace with underground tile (2150'), 3 farmstead windbreaks, and 1 well decommissioning were completed.
The remaining funds are encumbered in 3 contracts for grassed waterways.
2015: Three grassed waterways (4,682' total) completed.

Outcomes:
Water pollution reduction estimates for projects completed:
Reduction in Soil Loss = 98.75 T/year

Waterway needs are often evident after a rain event. A waterway's purpose is to:

- convey runoff from terraces, diversions or other water concentrations without causing erosion or flooding.
- reduce gully erosion.
- improve water quality.
