

Swamp White Oak

(*Quercus bicolor*)

Maturity Size 50'-60'

Moderate Growth Rate

Full Sun

Swamp white oak is a medium sized deciduous tree with a broad, rounded crown and short trunk which typically grows at a moderate rate to a height of 50-60'. Leaves are dark, shiny green above and silvery white beneath, with a 5-10 rounded lobes or blunt teeth along the margins. Fall-color is yellow but sometimes reddish purple. Fruits are acorns which mature in early fall.
